

## KIDNEY TROUBLE

Suffered Two Years—Relieved In Three Months

MR. C. B. FIZER, Mt. Sterling, Ky., writes:

"I have suffered with kidney and bladder trouble for ten years past."

"Last March I commenced using Peruna and continued for three months. I have not used it since, nor have I felt a pain."

"I believe that I am well and I therefore give my highest commendation to the curative qualities of Peruna."

### Peruna for Kidney Trouble.

Mrs. Geo. H. Simmer, Grant, Ontario, Can., writes:

"I had not been well for about four years. I had kidney trouble, and, in fact, felt badly nearly all the time."

"This summer I got so very bad I thought I would try Peruna, so I wrote to you and began at once to take Peruna and Manilla."

"I took only two bottles of Peruna and one of Manilla, and now I feel better than I have for some time."

"I feel that Peruna and Manilla cured me and made a different woman of me altogether. I bless the day I picked up the little book and read of your Peruna."

"It is the business of the kidneys to remove from the blood all poisonous materials. They must be active all the time, else the system suffers. There are times when they need a little assistance. Peruna is exactly this sort of a remedy. It has saved many people from disaster by rendering the kidneys service at a time when they were not able to bear their own burdens."

### SPORTS OF CHILDREN.

Slipping rope is a childish pastime of ancient origin. In place of a rope, a vine strung of leaves was originally used.

The childish amusement of riding a cane is of great antiquity. It was practiced by the children of Greece and ancient Rome.

The game of hide and seek is another youthful pastime of ancient origin. It came from Europe about the beginning of the seventeenth century.

The spinning of tops, a favorite amusement among children in the spring, also came from the Greeks. Records show that this kind of fun was in vogue at the time of Vergil.

Leap-frog is mentioned in the works of both Shakespeare and Johnson. It has been played by children from early times, and is still a favorite game with boys.

The flying kite derived its name from its originally being made to resemble that species of bird called a kite. The amusement of kite flying is about two centuries old in Europe. Probably it originated in China, where, so records tell, the practice of flying kites is very ancient.

### Her Favorite Play.

"What is your favorite play?" asked the girl who quotes Shakespeare. "Well," answered the youth with long hair, "I believe I like to see a man knock the ball over the left field fence as well as anything."—Montreal Star.

### BUILDING FOOD

#### To Bring the Babies Around.

When a little human machine (or a large one) goes wrong, nothing is so important as the selection of food to bring it around again.

"My little baby boy fifteen months old had pneumonia, then came brain fever, and no sooner had he got over those than he began to cut teeth and, being so weak, he was frequently thrown into convulsions," says a Colorado mother.

"I decided a change might help, so took him to Kansas City for a visit. When we got there he was so very weak when he would cry he would sink away and seemed like he would die."

"When I reached my sister's home she said immediately that we must feed him Grape-Nuts and, although I had never used the food, we got some and for a few days gave him just the juice of Grape-Nuts and milk. He got stronger so quickly we were soon feeding him the Grape-Nuts itself and in a wonderfully short time he fattened right up and became strong and well."

"That showed me something worth knowing and, when later on my girl came, I raised her on Grape-Nuts and she is a strong healthy baby and has been. You will see from the little photograph I send you what a strong, chubby youngster the boy is now, but he didn't look anything like that before we found this nourishing food. Grape-Nuts nourished him back to strength when he was so weak he couldn't keep any other food on his stomach." Name given by Postum Co., Battle Creek, Mich.

All children can be built to a more sturdy and healthy condition upon Grape-Nuts and cream. The food contains the elements nature demands, from which to make the soft gray filling in the nerve centers and brain. A well-fed brain and strong, sturdy nerves absolutely insure a healthy body.

Look in pkgs. for the famous little book, "The Road to Wellville."

## ALL OVER THE STATE.

Arrests at Springfield.

Springfield—Doss Galbraith and Hill Gooch, blacksmiths, were arrested, charged with murder in the first degree for their alleged participation in the lynching of three negroes in this city on the night of April 14. It is believed that the arrests were made upon the advice of Attorney General Hadley. Harry Hoeker, a young man, has been placed in the county jail on a perjury charge, being accused of giving false testimony before the special grand jury. Nineteen more arrests are yet to be made, but it is not generally believed that warrants for all alleged mob leaders, who, it is known, have been indicted, will be issued for some time yet. Judge Lincoln of the criminal court decided that Gooch and Galbraith could be admitted to bail. Gooch furnished bond in the sum of \$7,000, and was released from jail. Galbraith has not yet been able to give bond. Hoeker probably will be arraigned in a day or two and released on bond.

### Winter Receiver of Joplin Bank.

Joplin—L. W. Winter, of this city, has been appointed receiver of the defunct Joplin savings bank by Circuit Judge Gray. The statement of the bank's condition, which was filed with the application for receiver, set forth that the bank had 1,542 depositors. Liabilities of the bank include accounts of depositors and bills payable amounting to \$90,716.48. Among the marked assets of the company are the notes and overdrafts of the Ozark Coal & Railway Co., amounting to \$36,146.26.

### Infant Born In Jail.

Fulton—In the Callaway county jail here, Mrs. Alva Bailey, charged with being an accomplice of her husband, Ted Bailey, of Parker, who shot and killed Jay Lawton, a wealthy mine owner of Mexico, last fall, gave birth to a daughter. The trial of Mrs. Bailey was to have been held at the May term of court, but because of the approaching adjournment it was postponed until July 16, when a special term of court will be held. The mother and child have been removed from the jail and will remain at a private house until then.

### State Gainer Under New System.

Jefferson City—Figures in the office of the state treasurer show that the last legislature, in changing the "fee" system in the office of excise commissioner of St. Louis to a salary system, has in less than a year brought about \$20,000 into the state treasury. The law making the change went into effect June 14, 1905. Up to that time the commissioner retained 40 per cent. of the gross receipts of the office and turned the rest over to the state. Now he receives a salary of \$5,000 a year, and is allowed \$4,000 for office expenses and clerk hire.

### Would Indict Student Rioters.

Columbia—Judge Alexander Walker charged the grand jury to investigate rigidly the recent riot between the students and the employees of Columbia. He instructed the jury to probe the matter as deeply as possible and to bring to justice the guilty, no matter who the parties were or whatever their standing. The law had been violated shamefully in several ways, he said, and the incident was not one that could be overlooked.

### Bandits Rob Butler Station.

Butler—Three burglars, masked with red handkerchiefs, entered the Missouri Pacific depot at this place, and after confining the night operator, Roy Christol, in a box car, blew open the company's safe and secured nearly \$50. They left a bank draft for about \$100.

### Crazy Man's Awful Deed.

St. Louis—His mind unbalanced by the San Francisco earthquake and fire, through which he passed, Daniel Seelig killed his wife and then ended his own life with a pistol in the presence of his two little daughters.

### Dr. Woodson Reappointed.

St. Joseph—The board of asylum managers unanimously reappointed Dr. C. R. Woodson superintendent of the state hospital for four years.

### Missouri Towns Growing.

Washington, D. C.—The annual readjustment of the salaries of presidential postmasters in Missouri shows that out of 50 offices only two decreases occurred. This indicates a considerable growth in 48 out of 50 Missouri towns.

### Oats Doing Poorly.

Columbia—The condition of the oat crop has at no time during the year been promising, and is now only 48, 40 points below the corresponding average last year.

### Wheat Condition Declines.

Columbia—The present condition of wheat is not so good as reported a month ago, being 77, which is 9 points below last month.

### Fruit Prospect Excellent.

The state has never had a better prospect for fruit, notwithstanding the heavy falling of in the southeast and southwest sections.

### Epworth League Convention.

Montgomery City—The district convention of the Epworth league of the M. E. church south of the Mexico district was held here.

### Made Dean of M. & U.

Columbia—Mary Breed, dean of the University of Indiana, has been elected dean of the state university of Missouri.

### Girl Killed by Neighbor's Brother.

Kansas City—Carl Brightsaler, aged 1, was killed by his 4-year-old brother, Fred, who was playing with his father's gun.

## GOLF YARN BY LONGWORTH

And a Kansas Story in Return by an Enthusiast at the Game.

Nicholas Longworth, of Ohio, is a golf enthusiast who plays a good game, and Victor Murdock, of Kansas, a golf enthusiast who plays a very indifferent game, when swapping stories in the house cloakroom the other day, says the Washington correspondent of the Kansas City Times.

"The most remarkable golfer I ever knew," said Representative Longworth, "was a man out in Cincinnati, who had a passion for the game, but who complicated that fervor with an appetite for Scotch highballs that was the wonder of Ohio."

"His theory was that there should be a drink server on every tee, and he worked it by means of an army of caddies. One afternoon he came in and announced that he had renounced the game."

"What's the matter, Jim?" said a friend.

"Oh," he said, wearily, "I'm no use. I give it up. Whenever I can see the ball I can't hit it; and whenever I can hit it I can't see it."

Mr. Murdock told this one:

"Out in my town Judge Dale, of the district bench, is about the best golfer in our club. One day he had a case on trial in which several small boys had been subpoenaed as witnesses. Addressing a bright youth of about 12 summers, Judge Dale solemnly inquired: 'My boy, do you understand the nature of an oath?'"

"Oh, yes, sir," quickly replied the youth. "I often called for you, sir."

### TOLD OF THE TOTS.

The father of four-year-old Besale is a traveling man, and during his absence recently a new baby arrived. Upon his return home a few days later Besale met him at the door and exclaimed: "Oh, papa, you can't guess who was born while you were away?"

Little eight-year-old Ida, attracted by its bright binding, selected from the library a copy of Pope's "Essay of Man" to read. After a diligent effort to understand it she replaced the book, saying to her mother: "It may be easy on man, but it's hard on children."

"Noah's wife," said a boy in an examination, "was called Joan of Arc."

"Water," wrote another, "is composed of two gases, oxygen and combriren." "Lava," replied a third youth, "is what the barber puts on your face." "A blizzard," insisted another child, "is the inside of a fowl."

A schoolboy in the fifth grade scratched his head for a long time before attempting to "compare the animals of North America with those of Europe." At last, in his desire to say something, he wrote: "The animals of North America are not as large as those of Europe, but they get there just the same."

The mother of a six-year-old youngster was mending a rip in his pants while he sat bare-legged on the floor impatiently waiting for her to finish the job. He had been unusually quiet for a minute, and the maternal ancestor asked:

"What are you thinking of, my son?"

"I was thinking what a nice cigarette picture I'd make."

### DIETARY DICTA.

Dinner should be of a lighter nature in summer than in winter.

A quart of wheat contains more nutriment than a bushel of cucumbers.

There is a happy mean between eating everything and being squeamish. Two pounds of potatoes contain as much nutriment as 13 pounds of turnips.

Light soups, light desserts and light meals should have the preference in warm weather.

Vegetables and fruits are to be used most generously at that season of the year in which they naturally mature.

Beginning the dinner with soup is the very best way to get the whole system in condition for assimilating a hearty meal.

### LIMB WASTED WITH ECZEMA.

Suffered Untold Agonies—Doctor Said It Was the Worst Case—Wonderful Cure by Cuticura.

"I used the Cuticura Remedies for eczema. The doctor said it was the worst case he ever saw. It was on both limbs—from the knees to the ankles. We tried everything the doctors knew of, but the Cuticura Remedies did the most good. I was obliged to be with my limbs higher than my head, for the pain was so terrible I could not walk. I suffered untold agonies. One limb wasted away a great deal smaller than the other, there was so much discharge from it. I found the Cuticura Remedies very soothing, and I still keep them in the house. I am very thankful to say that I am cured. I found the Cuticura Remedies all that you say they are. I hope that you may have spared many lives by making the Cuticura Remedies for the benefit of persons suffering from the torture of skin diseases, such as I had. Mrs. Golding, Box 8, Ayr, Ontario, Canada, June 6, 1905."

### Not the Only Hot Place.

"The most serious objection I have to dying," said the Bostonian, "is that I shall have to leave Boston." "Aw, don't worry about that," said the Chicagoan; "Boston ain't the only hot place."—The Bohemian.

### With Some People.

A joke is not a joke when you have to listen to it instead of telling it.—N. Y. Press.

## SEVEN YEARS AGO

A Rochester Chemist Found a Singularly Effective Medicine.

William A. Franklin, of the Franklin & Palmer Chemical Co., Rochester, N. Y., writes:

"Seven years ago I was suffering very much through the failure of the kidneys to eliminate the uric acid from my system. My back was very lame and ached if I overexerted myself in the least degree. At times I was weighed down with a feeling of languor and depression and suffered continually from annoying irregularities of the kidney secretions. I procured a box of Doan's Kidney Pills and began using them. I found prompt relief from the aching and lameness in my back, and by the time I had taken three boxes I was cured of all irregularities."

Sold by all dealers; 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

### CONCERNING CLOCKS.

Never allow the clock to run down. It responds to regular attention just as surely as a human being does and keeps its course truly when made to follow its endless routine.

The hands of a clock should always be turned forward. To set the hands by reversing the right-hand motion is to loosen delicate screws that hold them within reach of various cog slips.

Never allow the clock to be moved from the position where it is well balanced. A deviation of two or three minutes a day from the correct time may be the result of an uneven placing of the clock, and once it is properly adjusted it should not be shifted for dusting or for artistic purposes. This is especially true of clocks that have a pendulum.

### Nothing Done.

"Want 'ny lee?"

"It's fresh?"

"Yep."

"Hing me up a twiscent chunk."

"Where to ye at?"

"Six foot, back."

"Gee awp!"—Judge.

Lewis' Single Binder Cigar has a rich taste. Your dealer or Lewis Factory, Peoria, Ill.

No man ever mounted the ladder of success on rounds of drink.—The Reader.

## Keeping Her Handy.

"That's a fine rope you have, Harker," commented the commiserator with the town mower and the weekly ham under his arm. "What are you going to do with it?"

"Use it as a tether," replied Harker.

"Ah! New row?"

"No, new cook."—Chicago Daily News.

### How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Doan's Catarrh Cure.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

WALDO, KENNAN & MARVIN, Wholesale Druggists, Toledo, O. Doan's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 50 cents per bottle. Sold by all Druggists.

Take Doan's Family Pills for constipation.

### Voracity.

Angler—Do the fish bite around here?

Native—Bite? Say, stranger, we have to muzzle 'em so they won't chew up the innocent bystander.—N. Y. Sun.

The girl who waits for a man to come along and make love to her after the manner of a novel hero will remain single to the end of the chapter.

## SICK HEADACHE
